Career Objective

Final-year Artificial Intelligence and Data Science student with hands-on experience in building AI driven applications using RAG, LLMs, and machine learning. Skilled in developing scalable, data-driven solutions and improving system efficiency through real-world projects. Seeking to apply technical expertise in AI and software development to solve practical problems in a dynamic environment.

Area of Interest

- Artificial Intelligence
- Generative AI
- LLMs
- Data Science

Experience

Intern

Machine Learning Engineer - Lyanaa AI

- Developed an AI-based elderly assistance system integrating YOLOv10 object detection and LSTM activity recognition for real-time object tracking, fall detection, and health monitoring.
- Implemented an edge-AI pipeline using Python, OpenCV, PyTorch, TensorFlow, ESP32, and Android, enabling real-time sensor processing, voice assistance, GPS tracking, and caregiver alerts.

Education

B.Tech in Artificial Intelligence and Data Science | 2023-2027

- National Engineering College, Kovilpatti
- CGPA: 7.71

HSC | 2022-2023

- RC Susai Higher Secondary School, Kalugumalai
- Percentage: 82.83%

Technical Skills

- Programming Languages: Python, SQL,Java
- Generative AI: Prompt Engineering, ChromaDB, LLMs

Extra Curricular Activities

- President of Rotaract Club
- Secretary of AI&DS Association

Projects

Shopwise AI

- Built an AI-powered chatbot to analyze product reviews and provide concise, context-aware insights.
- Implemented sentiment analysis and review summarization to identify customer opinions and product strengths.
- Integrated NLP techniques to process customer reviews and generate actionable product recommendations.

Hill-Aware Load Adaptive Driver Assistance System

- Developed an ESP32-based advisory system integrating load, slope, and speed for real-time heavy-vehicle risk monitoring.
- Implemented multi-parameter risk evaluation and context-aware alerts for speed reduction and gear adjustment.
- Designed a real-time HMI dashboard with risk index, artificial horizon, and road inclination visualization

Strengths

- Problem Solving: Ability to analyze complex problems and develop efficient solutions
- Logical Thinking: Strong capability to approach challenges with structured and analytical reasoning

Achievements

- Participated in INTELLINA 2K26, a National-Level Tech Fest at Coimbatore Institute of Technology (CIT), competing in GPTATHON and Murder Mystery events.
- Won Special Prize at AI Agentic Hackathon, IIT Mandi iHub & HCI Foundation; completed 100-hour GenAI for Business Innovation program.
